RM of Stanley Offices – 1-23111 HWY 14
Stanley Business Centre

You may have heard Stanley Council has been planning a project to expand wastewater capacity for the municipality over the past several years.

A partnership with the City of Winkler on a project to expand the existing lagoon and treatment facility is already underway and will allow for wastewater services to be enhanced and expanded into the villages of Schanzenfeld and Reinfeld.

Council invites residents of Schanzenfeld and Reinfeld to a community information event where the details of the project will be available. Councillors, staff, and engineering consultants will be in attendance to provide information and answer any questions.

Questions like:

What is the project?

Why is this project being done?

When is this project happening?

Who will be affected by this project?

What is the cost of the project?

How will this project be funded?

What is the cost to property owners?
